

Mangomint for Payment Partners

Build stronger relationships with your salon and spa merchants, close more deals, and take advantage of compelling partner arrangements that provide long term value.

Merchants we work with:

HAIR SALONS • MASSAGE THERAPY • BEAUTY SALONS • DAY SPAS • NAIL STUDIOS

What is Mangomint?

Mangomint is a new all-in-one solution for **scheduling, online-booking, point-of-sale, inventory,** and more. It is fully cloud-based and runs on any computer, iOS, or Android operating system. Merchants love its beautiful design, ease-of-use, and **full payment integration with Poynt.**

Available on    POYNT

Why is it better?

Unlike other booking software such as MindBody, Booker, or Vagaro, Mangomint is exclusively focussed on salons and spas and provides a much easier online-booking experience for clients, more intuitive tools for the front-desk, and highly personal support services.

Benefits for Payment Partners

INCREASE YOUR REVENUE

Besides increasing payment volume of your merchants, we also offer financial arrangements producing residual income for the entire term of our relationship.

LONG TERM PARTNERS

We are committed to long-term partnerships with payment partners. We will not offer our own payment services in the future and instead honor our relationships.

CLOSE MORE DEALS

Being a Mangomint partner allows you to present a more complete solution to your prospective salon and spa merchants. We will help you in your sales process.

Merchant Pricing starting at \$125/month

Pricing is simple, transparent, and scales with the size of our customers. Most medium sized merchants pay about \$200-\$250 per month for the software.
